

HS-WG4/PN-CAC125 COBB ABSORPTION SAMPLER

INTRODUCTION

COBB Absorption Sampler can be get the cobb absorbed specimen sampler (hereinafter referred to COBB Sampler) is a paper, cardboard and water absorption of oil through the standard test specimen dedicated sampling equipment that can quickly and accurately cut the sample size.

It is the ideal test apparatus of making paper, packaging and other industries of Quality Supervision, Inspection and departments supporting.

We have two model Cobb Absorption Sampler: HS-WG4 Type is Rotation mode and HS-CAC125 Type is Pressing mode.

This equipment meet the following criteria: QB/T1671

APPLICATIONS

Paper. paper board. Corrugated cardboard

STANDARDS

QB/T 1671

SPECIFICATIONS

1. Sample Dimension: $\phi 125\text{mm}$
2. Accuracy: $\pm 0.2\text{mm}$
3. Sampling Thickness: 0.1-1.0mm

CONNECTIONS

Electrical: NONE
